Since I don't have the master services agreement at home, I can't check the language - however - I wouldn't expect this to add additional requirements, only to refer to what is standard in a lab (which is what I suspect the master services agreement refers to).

I am checking with Robin on the signed/dated question for the ABP report. I'll let you know.

Thanks,
Valerie

Jessica,

Attached is a revised draft of Project Agreement Number 5 incorporating the responses you sent to me earlier this afternoon. Please note that I have a few questions for Loreen and Valerie with respect to the analytical specifications referenced in Attachment A. The questions are noted in the text of the draft.

Best Regards,
Will
